CollegeTrends Assignment questions

Instructions: This assignment contains 4 questions covering the topics HTML, CSS, JQuery, MySQL and one programming question, you are free to use any third party libraries for this assignment

HTML and CSS

Render this following image on html using bootstrap or any other frontend framework. You may use your own CSS style rules, using bootstrap is preferred. No backend code is required for it, just the html CSS markup would be suffice. Please try to replicate it as accurately as possible on html.

A screenshot of a web page with a blue header and footer. The main content area has a white background and features a sign-up form. The form includes fields for 'Full name', 'Email Address', and 'Password'. It also includes a checkbox for accepting terms and privacy policy, and two large buttons at the bottom: a red 'Sign up with your email address' button and a blue 'Login with your email address' button.

JQuery

How would you delete/remove the second row from the following html table code using JQuery DOM tree traversal? Give the code snippet in JQuery.

HTML

```
<table>
  <tbody id="tbody">
    <tr>
      <th>Sr</th>
      <th>Item name</th>
    </tr>
    <tr>
      <td>1</td>
      <td>Rice 2 Kg</td>
    </tr>
    <tr>
      <td>2</td>
      <td>Maggie Noodles</td>
    </tr>
    <tr>
      <td>3</td>
      <td>Eggs</td>
    </tr>
  </tbody>
</table>
```

MySQL

Consider the following example

Model	Seller	Price
Apple iPhone 3g	Flipkart	12,100 INR
Apple iPhone 5	Snap deal	39,120 INR
Apple iPhone 4S	Indiatimes shopping	22,235 INR
Apple iPhone 5	Flipkart	30,000 INR
Apple iPhone 5	Snap deal	30,000 INR
Apple iPhone 6	Flipkart	45,000 INR

Write a SQL query to select / display the details of models which have the same price and the same model.

Programming Concept

Instruction: You are free to use any language of your choice

Print the following pattern using only one for loop

```
1  
12  
123  
1234  
12345  
1234  
123  
12  
1
```

Instructions:

Put all the solutions in a zip file and reply to our mail, and for the solutions to jquery, sql and programming concept problem you can add the solution to a simple text file.

Try to solve all the questions, if not then send which so ever you have attempted

Good luck :D
